

Human Papilloma Virus (HPV) vaccination for boys is on its way!

12-13
years
old

HPV affects both males and females and from **January 2020**, boys aged between 12 and 13 will be given a vaccine to protect them against HPV related cancers

A link to the consent form will be sent via your school from September this year

FREE

The vaccination is free and will be given in school

4,000,000

boys across the UK will benefit from the vaccine every year

The vaccine offers protection against the two types of cancer that cause over 70% of genital and head & neck cancers and two types that cause 90% of genital warts

2 injections will be given, usually one in year 8 and one in year 9
