

ORMISTON DENES ACADEMY

29th May 2020

Dear Parent/Carer

I hope you have had a good week and enjoyed the excellent weather.

Although it would seem some of the previous restrictions are being lifted it is clearly important that we continue to be vigilant and that all health and safety procedures are robust. This of course applies to us as a school.

Year 10 students

We have considered at great depth how to utilise the additional time that is available for our Year 10 students from 15th June, as decided by the Government. In consultation with Ormiston Academies Trust it has been agreed that we will look to provide in school face to face support for those free school meal students whose most recent progress data shows them to be most at need of intervention. The aim here is to supplement the remote education that is being provided for all Year 10s. Parents of the students we are targeting will receive an individual invitation shortly and we ask that you confirm if you will be sending your child back into school by return. Those parents will also receive a more detailed outline of how the day will be structured and how we will adhere to strict social distancing procedures. For other Year 10 students we are looking at remote ways in which we can provide more individualised online support.

For the vast majority of students who are still working at home - we are currently reviewing our online provision and will give you more information on this next week.

Stay safe.

Yours faithfully

Mr Nixon
Principal
