

## Crystal Review June 2020

Recently, I watched an hour long special of a magnificent performance by Cirque du Soleil, called, Crystal. The ice skaters' technique was amazing and their acting was fantastic. Throughout the entire performance they managed to keep a straight face and focused, no matter how much skating they did, they always knew how to not show if they were out of breath or tired.

Some of the best aspects in the performance were the imagination in the creation and the choreography. Watching the lifts and the graceful movements was wonderful. The props and the lights complemented the characters and the choreography. The skills they portrayed in the performance were clean and very difficult without proper training.

For the whole performance there was really nothing wrong with it. Their timing was correct, their posture was excellent and their costumes were amazing.

In conclusion, I would highly recommend this to anyone who likes to ice skate, or someone who likes to watch dance.
